## Why Living Nature

Everyone has a favourite animal somewhere in their life. Sometimes it's a pet. Sometimes it's the animal you always wanted to be from childhood. But often, it's an animal that holds a special place in your heart for reasons only you know.

We all come from different backgrounds and it's not always possible to cuddle your favourite animal, especially when it's a tiger! Nevertheless, the human-animal bond is still strong and the desire to appreciate and learn more about our fellow creatures is endless.

# The World of Animals Brought to You

There's so much to learn and so many fascinating things to discover. Living Nature brings joy to all ages by educating and raising awareness in the world of animals through our soft cuddly toys.

DID YOU  
?  
KNOW

Did you know that lop-eared rabbits use their long ears to regulate their body temperature?

## A Friend For Life, That's a Guarantee

We design our toys to last a lifetime, but we have a 10-year guarantee just in case.

Every Living Nature animal comes with a 10-year quality guarantee. If a customer's soft toy has a defect within the 10-year period, they will be entitled to a refund or replacement. A Living Nature animal is not just a soft toy, it's a friend for life!

## So Good They're Almost Real...

Ever wanted to look a lion in the eyes? Wish your room really was lived in by pigs? Or maybe you just want to let your child have a pet that doesn't make a mess. With Living Nature, you almost can. Because they're almost real.

We focus on creating the perfect balance of realism and cuddly appeal in every animal because that's what brings about the irresistible charm of a Living Nature soft toy. Living Nature brings real moments of joy and a lifetime companion for every animal lover.

# The work of art-ists

## Trimmed To Perfection

Our production artists trim the fur by hand to get the finished animal as close as possible to the real thing. From short fuzzy fur on noses to just the perfect amount of fluff on a tail.

## The Eyes Have It

It's the small details that count, and that's why we use different eyes in every animal. When you make eye contact with your new friend, you'll understand why!

## Too Good to Be True

We carefully weave the best fabrics, creating multi-tone fur fabric on lots of our animals to make them realistic, adding depth and texture to your friend's coat.

## Planet Friendly

We use certified recycled PET stuffing from drinks bottles and other food containers inside our soft toys. How many bottles are used in each toy? Just look on the tag!

# Educational

Made with a passion for wildlife, our range helps kids and adults alike learn more about the diverse species that share our planet.

We're proud that Living Nature helps children learn more about the many wondrous animal species we share our planet with, igniting young imaginations.

Each plush toy in the primary range features a colourful hang tag with educational fun facts about the animal, such as its behaviour, food and habitat.

**Educational  
Fun Facts!**

# Eco-Friendly

## Naturli (Nah-chur-lee)

We created Naturli because we're committed to sustainability. Being more Naturli is all about caring for our environment and teaching everyone about animals and their habitats through play with engaging, eco-friendly toys.

We take post-consumer PET plastic bottles and other food containers that might otherwise end up in landfill or our oceans and give them a new lease of life as stuffing inside our soft toys.

Every soft toy comes with a Naturli tag showing how many recycled plastic bottles are used to make it, so with every purchase you can feel happy knowing you've gone with an ethical, sustainable and fun choice.

## Protecting our planet

To protect the animals we love, we need to protect the places they live in too. So not only are we making our toys more sustainable by using recycled plastic fillings wherever we can, we are also excited to announce that in 2023 we are working with PlanetMark to identify, set goals, and reduce our carbon footprint as a company and make definite steps to improve the way we work in a more planet friendly way.
