2023 - 2024

## SUSTAINABILITY

Global Affairs designs and manufactures with love products for children: the future generation. For us it is of great importance to run our business in a socially responsible way, so we can contribute to a future that is green and peaceful.

In the entire production process - from design and production to delivery – the aim of Global Affairs is to work with respect for People, Planet & Profit. All steps and processes (national and international) must be monitored, to gain a clear overview of all effects and risks. Based upon this, responsible decisions can be made.

To monitor our entire supply chain even better, Global Affairs is in the process to become a B-Corp member. We started a partnership with Rainbow Collection ([rainbowcollection.nl](http://rainbowcollection.nl)) and with the help of IMVO (IMVO is part of MVO, [mvonederland.nl](http://mvonederland.nl)) we created our impact strategy and sustainable purchasing policy. We hope to obtain the B-Corp certificate by the end of the year 2023. The goal is still to embed sustainable impact throughout the entire chain and to involve the right people/partners who will execute this strategy. Step-by-step, the actual 'doing' is the most important part.

### Materials

During design and production, we are continually on the lookout for more sustainable materials to be used for our products. For example, all our soft toys are filled with recycled material, our felt is recycled and from July 2023 onwards all the cotton we use is certified GOTS (Global Organic Textile Standard) and certified OEKO-TEX.

### Packaging

Packaging is used as little as possible. Individual packaging has been skipped, products are wrapped in recycled material per set for transport and storage. For labels and packaging mostly FSC-paper is used.

### Suppliers

Our suppliers are based in China, India and Peru. They are small companies with mostly female employees. We can proudly say that we have had a very good and pleasant relationship with them for years and we visited them annually (pre Covid). All our suppliers have signed our 'Code of conduct', they are affiliated with SEDEX/Amfori and undergo annual audits. In the process of obtaining the B-Corp certificate our suppliers will be monitored profoundly on a yearly basis.

## **Certificates**

### **B Corp**

B Corp Certification is holistic, not exclusively focused on a single social or environmental issue; the assessment that companies complete to become a B-Corp consists of 5 pillars: the employees, the environment, the community, the customers and governance.

Certified B Corporations, or B Corps, are companies verified by B Lab to meet high standards of social and environmental performance, transparency and accountability.

### **FSC – The Forest Stewardship Council**

Products and packaging carrying this label guarantee that the materials come from sustainably managed forest, that animals and plants are protected and that the people employed by the industry work under favourable social and economic conditions.

### **GOTS – General Organic Textile Standard**

GOTS is the worldwide leading textile processing standard for organic fibres, including ecological and social criteria, backed up by independent certification of the entire textile supply chain. GOTS certified final products may include fibre products, yarns, and fabrics.

### **OEKO-TEX**

Oeko-Tex is a label for textile products that are sustainably produced and have been tested for harmful substances according to the Oeko-Tex criteria.

### **SEDEX/AMFORI**

Sedex and Amfori are membership organisations that provide online platforms for companies to manage and improve working conditions in global supply chains. They provide practical tools, as monitoring activities for factories and certification and strategies to help companies improve their responsible and sustainable business practices, and source responsibly.

## **MVO Nederland**

MVO Nederland is the movement for entrepreneurs in the New Economy. The New Economy is one that is future-proof, because only in this economy entrepreneurs can continue to act as entrepreneurs. The New Economy is climate-neutral, circular, inclusive and with fair supply chains.

### **Update goals set for 2023**

We are proud to announce that a number of targets set for 2023 have already been achieved:

- All the cotton we use is now both GOTS- and OEKO TEX certified.
- All our product packaging is made of FSC certified paper

We started to work to become a B Corp member. Our goal is to finalize the application before the end of 2023.

### **Goals for 2024**

- In 2024, our goal is to actually be certified as a B Corp member.

By becoming a B Corp we will carry out a yearly risk analysis of all suppliers, including an overview of improvements and determine an optimal sustainable purchasing policy.

## BAGS & POUCHES

- 1. **A0816** Crochet Bags Assorted
- 2. **A0835** Crochet Bag Rainbow
- 3. **A0837** Pouch Sea Pink
